Collagen
Collagen will help with the regrowth of cells that make up the skin's dermis layer and helps restore moisture, promoting a glossy coat and soft skin.

Aloe Vera
Aloe Vera contains enzymes that help with itchy skin or hot spots for pets and reduces inflammation. Aloe is also excellent for moisturization if your dog has a flakey or dry nose.

Virgin Coconut Oil
Virgin Coconut Oil clears up skin conditions including dermatitis and eczema · Promotes the healing of wounds · Moisturizes cracked paw pads and calluses

Neem Oil
Neem oil and madre de cacao for dogs can help reduce itchiness with allergies, treat skin infections, fight fungal infections, and has even been shown to treat mange and ringworm.

Madre de Cacao
madre de cacao is a multipurpose herbal treatment effective against both sarcoptic and demodectic mange, its antiseptic and anti-parasitic properties makes it a miracle cure for many conditions that would otherwise eat your budget should you decide modern synthetic treatments.

Our Vanilla Comfort scent has a natural vanilla essence with comforting aromas to give off a sweet, refreshing smell that calms your pet without being too overpowering.

Calm & Soothing Formula

Our calm & soothing is a deep, woody scent and smells like a mix of floral, rich, balsamic, soft, and sweet accents. The base note of our calm and soothing scent is used in iconic perfumes and colognes.

Baby Shower

Have you ever desired to breathe in profoundly when holding a newborn? When you're near a baby, does a reflex seem to take over that's even stronger than the urge to sniff a rose? Our baby shower has a powdery scent of a freshly bathed baby which is light and comforting with familiar smells we get in fine perfumes, like jasmine, rose, and vanilla.

Floral Scent

Our floral formula is herbal, sweet, and has a subtle smell of Freshly picked apples. Our floral formula smell is to relieve depression and encourage relaxation. The essential oil derived from our floral formula is yellow and white flowers and is blue due to high levels of azulene, an organic chemical compound used for calming.
